

OMERS Administration Corporation

INTRODUCTION TO GOVERNANCE MANUAL

OMERS Administration Corporation (“OAC”) is a non-share capital corporation acting as the administrator of the pension plans governed by the *Ontario Municipal Employees Retirement System Act, 2006* (“OMERS Act”) and the trustee of the pension funds related to the pension plans. The composition of the OAC and the method of choosing its members (generally referred to as the “Board of Directors” of the OAC or the “OAC Board”) is set out in the OMERS Act. That same legislation grants to the OAC the capacity, rights and powers of a natural person for carrying out its objectives.

The OAC has adopted governance structures and processes to ensure that the objects of the OAC are achieved in an efficient and effective manner in the interests of plan members and other stakeholders. The Board of Directors and the management team (“Management”) at the OAC, led by the President and Chief Executive Officer, work closely together to administer the affairs of the OAC in the interests of the stakeholders.

While the OAC Board does have the plenary authority to change Management, if required, the governance systems and processes adopted at the OAC reflect a partnership between the OAC Board and Management. The partnership directs its efforts at acting in the best interests of plan members and ensuring their pensions are delivered at a reasonable cost. The OAC Board has overall stewardship responsibility for the OAC which is generally defined as a responsibility to oversee the OAC in broad general terms. The OAC Board therefore sets boundaries and strategic direction. The management team is the organization’s ongoing driving force managing the affairs of the OAC and providing to the OAC Board the information, reports and resources it needs for its stewardship role.

This Governance Manual sets out a framework how the OAC Board and Management share responsibility for the successes of the OAC. The governance documents are built on a foundation of partnership, equality, accountability, candour and clarity. All of these principles are important among Directors, between the OAC Board and Management and within the Enterprise Senior Leadership Team at the OAC. It is these principles which animate the charter documents included in this Governance Manual and lead to the collaborative approach to the affairs of the organization which underpin governance at the OAC.

The OAC Board is committed to continually reviewing its governance processes. Through its Governance Committee, the OAC Board updates this Governance Manual from time to time, and at least annually, to ensure that the OAC continues to do the best job it can for the benefit of all Plan members and other beneficiaries.

This governance manual can be used by plan members to see how responsibilities are divided among various important bodies at the OAC. It would also provide a useful resource to any regulators having jurisdiction over pension matters regarding the OAC's current governance practices.
